Great Quantities of Merchandise at Lowest Prices Since the War

To-morrow and Wednesday will be Clover Days—the most notable, all things considered, since pre-war days! The values in most instances are greater than for several years. Prices average lower, and more radical reductions have been made than on former Clover Days, and instructions to make these most attractive Clover values of the year have been strictly carried out by all our heads of departments.

Extraordinary values have been procured from manufacturers at reductions from the new lower prices; many lots from our regular stocks have been added to the wonderful collection of Clover Specials at extreme reductions, and some lots already marked at reduced prices are further reduced.

Every One of These Clover Specials is a Very Exceptional Value, and Hundreds of Others Will be Found Under the Famous Four-leaf Clover Signs Here To-morrow

As you know, Clover Day is the most famous ECONOMY EVENT in this country. It has been copied in outward forms by stores everywhere, but never yet in spirit. Even when costs were highest we maintained its prestige by direct losses of profit; and those who have felt that prices have not come down as rapidly as was expected, will be MORE THAN SATISFIED WITH THE WONDERFUL VALUES ready for them here to-morrow.
